

First Musical Chautauqua Concert at Wandamere is Monday Evening

MRS. A. R. C. SMITH, of the Ogden Choir.

MRS. EMMA RAMSEY-MORRIS, Soloist.

GEORGE E. SKELTON, Violinist.

MYRTLE BALLINGER, soprano, with Ogden Choir.

Salt Lake is ready for the Musical Chautauqua. This innovation in the musical life of the city promises to be not only a success, but such a success as will permanently establish it as a permanent event each year. It is a conception of Prof. J. J. McClellan, the tabernacle organist, and Fred C. Graham, a well-known tenor. The scope and high character of their plans has met an enthusiastic response from the musicians and music-lovers, and a week of memorable programmes is to be given at Wandamere. There is especial interest in the event because it is really a week of sylvan melody as the exposed character of the pavilion, the forest environment, with its surroundings of snow-capped mountains, make for scenic impression as well as musical attractiveness that is unprecedented.

That the attendance will be large is evident from the large advance sale of seats at the Clayton Music company. No additional cost is imposed for reservation.

The Salt Lake, Ogden, and Provo papers, and the press pretty generally throughout the State has encouraged the scheme, and the fact that so many well-known home artists who have reached high positions in the musical field are actively interested and will appear on the programmes, gives a gratifying assurance of success. It has been noted of late that the musical performances at the various Chautauqua assemblies have been given greater and greater prominence, so that at the present day the programmes of the music sections are showing up with equal prominence with those of the sections covering literature, history, philosophy, languages, science, and the other arts.

Utah's High Rank

The United States is fast becoming a musical Nation, and in the National field of musical endeavor Utah now occupies no mean place. For Salt Lake, Ogden and Provo artists and choruses and choirs have made their names known in the American musical world. Tourists come to Salt Lake from all over the world; they attend concerts and recitals in the tabernacle, as well as in other church auditoriums, and have not failed to notice the high order of ability that obtains here. This fact received general attention, so that the

high standards of vocal and instrumental attainment that prevail in Utah are now pretty well known, both abroad and in this country. There have been musical festivals of note in this city before, with artists from abroad as well as from Salt Lake and Utah, and these have always been successful. Artists from outside like to visit Salt Lake, Ogden and Provo, because they know that the art divine is appreciated here, and favorable impressions are invariably carried away.

Idea of Permanency

So it is natural enough that such an institution as a Musical Chautauqua should be established in Salt Lake; and with its favorable outcome here, it is reasonably assumed that it will be made a permanent annual feature. Persons have been selected as the most convenient and best suited place for holding the proposed festival. It has surroundings suggestive of the shady groves that characterize the academies and philosophical schools of classic times, thus amply providing for all the accompaniments. The street cars run right to the resort, and arrangements have been made to handle the crowds as expeditiously as possible. Persons attending the Chautauqua are advised to take the early cars, so as to enjoy the scenic surroundings before entering the pavilion, and to secure good seats.

A special guaranty of excellence in the programmes is the names of the two artists who have had them in preparation, as well as the names of the eminent local soloists, choral organizations, individual contestants and adjudicators, which appear in connection with the festival. The projects of the enterprise are Prof. J. J. McClellan, organist of the Salt Lake tabernacle, and Fred C. Graham, the well-known tenor. Both are of recognized experience and musical ability, who certainly have been before the home public long enough to give ample evidence of their fitness to handle successfully so important an undertaking. They have made such preparation as will guarantee an entirely successful outcome during the coming week of music. Both will fill important positions during the week's events.

The list of participating Utah celebrities is, indeed, imposing. There is

Conductor Joseph Ballantyne of the Ogden Tabernacle choir, which is to appear on the first evening in Whitney Combs's cantata, "The First Christmas." Mr. Ballantyne studied in New York under Oscar Sanger, the noted vocal teacher. His afterward tooling the Ogden Tabernacle choir and accomplished wonders with it. The choir greatly distinguished itself two years ago when it gave at the Portland fair McClellan's "Ode to Irrigation."

Other Noted Performers

Hugh W. Douglass is another prominent figure on the list, as he is to be soloist in "The Death of Minnehaha," on the second evening. Tuesday night, Mr. Douglass is a polished singer who has studied abroad for several years to perfect himself in his art, and his recital here as a vocalist and instrumentalist has easily made him one of the most noted musicians in this part of the country. George E. Skelton, the violinist, is very well and favorably known both in Salt Lake and out of it, and he is the concert master of the Salt Lake Symphony orchestra. Mrs. Emma Ramsey-Morris needs no formal introduction, for her fine soprano voice has often been heard to the best advantage, not only in the local concert auditoriums, but in Eastern cities. The galaxy of artistic talent also includes Horace S. Ensign, baritone; W. C. Clive, violinist; J. J. McClellan, organist; Miss Myrtle Ballinger, soprano; Call, tenor; Mrs. Lizzie Thomas, baritone; John Robinson, baritone; Thomas Ashworth, tenor, and other artists. Adjudicators have been carefully selected to decide the various contests, and include J. J. McClellan, musical director of Chautauqua; Arthur Shepherd, chairman; George Carless, George Skelton, J. J. Daynes, Joseph Ballantyne, Hugh W. Douglass, M. J. Brines, Horace S. Ensign, and Charles F. Stainer. The high standing of these gentlemen is an assurance of equitable and satisfactory awards. No adjudicators will serve in any contest in which his pupils are contesting.

Programme for the Week

The first three nights will be given up to music as of entertainment; the last three will be devoted to the con-

tests. There is a great rush of contestants, over sixty having presented themselves, and from the interest manifested, it is evident there will be some excellent work, and new voices and new instrumental talent will be brought out. The Musical Chautauqua is sure to be a marked step in advance in local music, and, in fact, for the whole State. The full programme, with the rules and regulations governing the different contesting events, is as follows:

First Concert, Monday, July 22—Whitney Combs's cantata, "The First Christmas," by the Ogden Tabernacle choir, 200 voices; Joseph Ballantyne, conductor; J. J. McClellan, accompanist; Miss Myrtle Ballinger, soprano; Mrs. A. R. C. Smith, contralto; Fred C. Graham, tenor; and Horace S. Ensign, baritone.

Second Concert, Tuesday, July 23—"The Death of Minnehaha," by the Festival chorus, J. J. McClellan, director; Ed. P. Kimball, accompanist; Mrs. Emma Ramsey-Morris, soprano; Hugh W. Douglass, baritone; also a miscellaneous programme by the Salt Lake Tabernacle choir, H. S. Ensign, director; Lizzie Thomas-Edward, soprano; Thomas S. Ashworth, tenor; John Robinson, baritone.

Third Concert, Wednesday, July 24, Pioneer Grand Musical—J. J. McClellan, pianist; George E. Skelton, violinist; Horace S. Ensign, baritone; Elsie Barrow-Best, mezzo-soprano; Rita Jackson, pianist.

On next Thursday, Friday and Saturday nights will hold the greatest musical contest ever held in Utah.

Adjudicatory Committee

Adjudicators will not serve in any of the solo contests in which their pupils are contesting. The following well-known musicians form the board of adjudication: J. J. McClellan, musical director; Arthur Shepherd, chairman; George Carless, George Skelton, J. J. Daynes, Joseph Ballantyne, Hugh W. Douglass, M. J. Brines, C. F. Stainer, Anton Pedersen, H. S. Ensign, George E. Skelton. Any three of the judges will be chosen by the director and the chairman to adjudicate any of the contests, but all adjudicators will be present at all contests. The high standing of the judges assures honest, intelligent and unbiased decisions.

NOT QUITE SO WARM AS ON PREVIOUS DAY

However on the Pavements
There Was But Little Difference;
Fair Today.

The best that can be said of the weather offerings of the Dooly block oracle on Saturday is that it wasn't quite so bad as that handed out on Friday. The mercury was simply too tired after the previous day's work to do anything, and as a result it only managed to make 88 as a maximum for Saturday.

The oracle has rather an advantage over the rest of Zion, being so high up in the air. When Zion feels that it is extremely hot, the oracle is just feeling fine, and when he wants to know how it feels with the mercury at higher points he boosts it up and Zion sweaters. About once a week is often enough for the oracle, though, and so Saturday was not essentially different from the other days. Sunday won't be much different either, according to the secrets imparted by the weather man on large pasteboard cards Saturday afternoon. He says it will be fair.

General Conditions

The low barometric pressure remained central over the plateau, and low pressure was also reported over the north Atlantic and north Pacific States. High barometric pressure extended over the middle Pacific and west Gulf States, covering a large area. These conditions have caused the weather over the greater portion of the country and local showers or thunderstorms over portions of Montana, New Mexico, Colorado, Manitoba, Lake region, Ohio valley, Gulf and Atlantic States. The warm wave continued over the Central valley, Lake region, Gulf and Atlantic States.
